To Whom It May Concern:

K-LOVE's programming has done wonders in my life, has made me a stronger Christian and a better person. My family only listens to K-LOVE because I don't have to worry about negative content entering our hearts and our minds. It is important for individuals and communities to have positive, encouraging words on the radio and positive encouraging music. K-LOVE is the only station on my dial in my community that does not have music filled with immoral lyrics. If the content of K-LOVE is altered by the FCC's proposed changes, my family and I will not have an option on the radio. We will have to seek satellite radio or rely only on Christian CD's. There is not a single station on my radio right now that does.

The proposal to have one board overseeing all broadcasters in my area will severely impact the Christian mission of K-LOVE. There is no guarantee that non-Christians will sit on the board and will inject their non-Christian beliefs into my radio station, K-LOVE. This is an issue that affects our freedom of speech and freedom of religion.

In addition, the proposed changes will be adding huge expenses to the affected stations, which will force many to leave the air. These are communities that are relying on the positive word and music of K-LOVE. What a frightening proposition! K-LOVE is completely listener supported, meaning their operations are fully funded by its listeners. K-LOVE's listeners already sacrifice financially to ensure they can continue to listen to K-LOVE. Additional expenses will make it extremely difficult for listeners to continue to support K-LOVE financially at a 100% for each of the station's communities.

Please do not change the rules that will affect my K-LOVE station. My family relies on it on a daily basis. My life would not be the same without it. With the world we live in today, with such immorality on television programming and music, it is encouraging to know I can sit at home, in my car, or in my office and listen to K-LOVE's inspiring music and the word of our God.

In Jesus' name, I pray my letter will encourage the FCC to make the right decisions for K-LOVE listeners. Amen.
